(2) Upon conclusion of Contract for systematic investment, the investor is obliged to provide on his/her account selected by him amount of investment on the indicated in the contract date and that sum to be on its account till the fulfillment of the order. The purchase order under a contract for systematic investment is automatically generated at the indicated by the investor day for investment, by which the order is considered to have been filed.

(3) In case the investor has not provided enough funds in your account, the order is considered invalid, as is canceled automatically by the system and proceed to the next period of investment.

(4) If the investor misses installments within 3 consecutive months, the contract for systematic investment is automatically terminated.

Upon submission of orders, their value is divided by the issue price. In case that after the reverse verification in the system (where the calculated number of units is multiplied by the issue price) get a value that is less than that specified in the contract, the account of the investor will be charged with the higher value and respectively, will be issued an additional number of units.

V. CALCULATION OF THE NET ASSET VALUE, EMISSION VALUE AND THE ISSUE PRICE OF THE UNITS FOR REDEMPTION

Net Asset Value

Art. 29. (1) The net asset value of the Fund is determined every business day of the weekend includes the value of all held by the Fund assets and liabilities in balance on the date of the valuation. If any business day was declared officially a public holiday, the calculation of the issue price and the redemption takes place on the first business day.

(2) When calculating net asset value is used a uniform and consistent evaluation system, taking account of the costs associated with the activity of sale and redemption of units, including the remuneration of the Management Company and the Custodian as well as other expenses, if any be provided.

(3) The net asset value of the Fund is equal to the sum of the carrying value of all assets of the Fund, decreased with the amount of the carrying value of all liabilities. The net asset value per unit is equal to the net asset value divided by the number of Fund units outstanding. The carrying value of assets and liabilities shall be is determined in accordance with approved by the Financial Supervision Commission Rules for valuation and determination of the net asset value of the Fund.

(4) The assessment of the fund's assets is carried out at initial acquisition (recognition) - at acquisition cost. The subsequent assessment of the fund's assets is carried out at fair value.

(5) Subsequent measurement of the financial instruments of the Fund is carried out at fair value in case such can be defined as follows:

1. of securities and money market instruments issued by Republic of Bulgaria, traded on venues in an active market in the country, is based on the average of prices "buy" at market close on the last business day, announced by not less than two primary dealers of government securities under the current legislative act, governing the terms and conditions for issuing, acquiring and payment of dematerialized government securities. If the price is calculated on the basis of gross prices of primary dealers, it is used directly. On condition the price is clear, on the basis of interest characteristics and frequency of coupon payments, it is converted to gross and then used for revaluation. If it is not possible to apply In case of inability to implement this point of the day for the valuation, for subsequent evaluation will apply the closest established under this section fair price within the 30-day period preceding the day to which the assessment is performed.

2. of issued by the Republic of Bulgaria securities and money market instruments as well as issued by another Member State securities and money market instruments traded on trading venues in active markets abroad is carried out:

a) "bid" price at market close on the date of the valuation, announced in an electronic system for price information;

b) if the foreign market is not working on the day to which is carried out the assessment - by price "buy" at market close on the last business day announced in an electronic system for price information.

c) in case the price is calculated according to letters "a" and "b" is gross, it is used directly. On condition the price is clear, on the basis of interest characteristics and frequency of coupon payments, it is converted to gross and then used for revaluation.

3. for Bulgarian and foreign shares and rights listed or traded on an active regulated market in Bulgaria - a average weighted price of transactions concluded on the day to which assessment takes place, announced through the trading system or stock exchange bulletin if the volume of transactions concluded on this day is not less than 0.02 percent of the volume of the corresponding issue.

a) if it could not be determined price under p. 3, the price of the shares or the rights shall be determined as the average of the highest price "buy" from orders that are valid at the time of closing of the regulated market on the day to which assessment takes place, and the weighted average price of the transactions with the relevant securities transactions for that day. The price is determined in this way only if there are completed transactions and bid price "buy."

b) if it can not be applied p. a the price of shares, respectively of the rights is the average weighted price of transactions concluded valid for the closest day in the last 30-day period preceding the day on which assessment takes place, for which there are transactions. In case in the previous 30-day period there has been an increase in capital or split of shares of the issuer or is declared payment of dividend, the weighted average price under the first sentence shall be adjusted by the ratio of the capital increase, or the division of shares or the amount of dividend, if the closest day in the last 30-day period preceding the day on which assessment takes place, for which have been concluded deals before the day, after which the shareholders are not entitled to participate in the capital increase, respectively, the day of the division or the day from which the holders of units are not entitled to dividend.

4. of units of collective investment schemes in Art. 38, para. 1, p. 5 CISOUICI ACT, including in cases of temporary suspension of redemption shall be carried out at the latest published redemption price.

6. of Bulgarian and foreign bonds and other forms of debt securities admitted to or traded on an active regulated market in Bulgaria - on average weighted price of transactions concluded on the business day to which assessment takes place, announced through the trading system or exchange bulletin, if the volume of transactions concluded for the day is not less than 0.01 percent of the volume of the corresponding issue.

If it can not be determined a price under p. 6, subsequent valuation of bonds is carried on the average weighted price of transactions, concluded with them for the closest day in the last 30-day period preceding the day, on which assessment takes place, for which there are transactions.

7. of Bulgarian and foreign transferable securities and money market instruments admitted to or traded on a regularly functioning, recognized and publicly accessible regulated markets abroad:

a) at the last price of a transaction concluded with them on the relevant market on the day to which they carry out the evaluation;

b) failing to apply the valuation method under letter "a" the assessment is carried out in "bid" price at market close on the day to which assessment takes place, announced in an electronic system for price information of securities;

c) if failing to apply the valuation method under letter "b" the assessment is done at the last price of a transaction concluded with them within the last 30-day period preceding the day to which is carried out the assessment;

8. of derivative financial instruments with underlying securities listed or traded on a regularly functioning, recognized and publicly accessible regulated markets abroad is conducted under pt. 7.

(6) In cases where no trade takes place on a regulated market in working for the country days or when certain securities are temporarily suspended from trading for subsequent valuation of securities admitted to trading on a regulated market, the value valid for the day of final trading session at a date for which is the valuation. At subsequent valuation of bonds under the first sentence is reported and the interest accrued on the respective days.

(7) The rule under par. 6 shall not apply when on the regulated market has no trading sessions held for more than 5 working days.

(8) The rule under par. 6 also applies in cases where on a regulated market is not conducted trading session due to a public holiday in the respective country day and which is business day in Republic of Bulgaria.

(9) The securities and financial instruments which can not be determined at fair value under par. 5 pt. 1-8, and those who are not admitted to trading on regulated markets are measured at fair value, calculated in accordance with the principles and methods defined and detailed in the approved by the Financial Supervision Rules for evaluation of the portfolio and determining the net asset value of the Fund.

(10) Deposits in banks, the money in cash, cash funds in current accounts and short-term receivables are evaluated on the date of the valuation as follows:

1. fixed-term deposits - at their nominal value;
2. money in cash - at nominal value;
3. demand deposits - at nominal value;
4. short-term receivables with no stated interest rate or income - at cost price;
5. short-term receivables with a fixed interest rate or income - at cost price.

(11) Subsequent measurement of the money market instruments admitted to or traded on a regulated market is defined under par. 5, p.7. In case of inability to be applied par. 5, p.7 the assessed value is determined in accordance with the principles and methods defined and described in details in the approved by the Financial Supervision Commission Rules for portfolio evaluation and determination of the net asset value of the Fund.

(12) The financial assets denominated in foreign currency are recalculated in BGN equivalent, using the exchange rate of the Bulgarian National Bank, valid for the day of the valuation.

(13) The value of liabilities is equal to the sum of the carrying amounts of short-term and long-term liabilities on the balance sheet. Liabilities denominated in foreign currency are calculated at the official rate of exchange on on the day to which is carried out the assessment. Assessment of liabilities is performed in accordance with International Accounting Standards and the accounting policies of the Fund.

(14) The Board of Directors of the Management Company adopts rules for portfolio evaluation and determination of net asset value, incorporating the principles and methods of evaluation of assets, and the system of organization of this activity.

Terms and conditions for determining the issue price and the redemption price of the Fund units

Art. 30. (1) The issue price and the redemption price of the units shall be determined by the management company under the control of the Custodian.

(2) The issue price and the redemption price of the units are calculated each business day (called day T+1 "day that assessment is carried out") to the previous (day T called "day to which is carried out the assessment "). If the relevant business day was declared officially a public holiday, calculation of the issue price and the redemption takes place on the first business day.

(3) The management company by the end of each business day, at which the assessment (day T + 1), declared them appropriately as specified in the Prospectus for public offering of units of the Fund. On the same day the issue price and the redemption price of the units is announced to the Financial Supervision Commission.

(4) Till reaching the net asset value of the Fund in the amount of 1,000,000 Levs (one million Levs) The issue price (EP) is equal to the net asset value per unit. Once the net asset value of the Fund passes the amount under the first sentence, the issue price equals the net value of assets per unit increased by the issuance costs in the amount as follows:

1. For order to 25,000 Levs (including) - 2 (two) percent of the net asset value per unit;
2. For orders of 25,000 Levs to 100,000 Levs (including) - 1.5 (one point five) percent of the net asset value per unit;
3. For orders from 100,000 to 200,000 Levs (including) - 1 (one) percent of the net asset value per unit;
4. For orders over 200,000 Levs - issue price equals the net asset value of one unit.

Upon conclusion of a contract for systematic investment (CSI) issuance costs are charged on every first installment after the signing of the contract, respectively on each first installment after renegotiating terms of the contract concerning a change in the monthly fee.

(5) The redemption price is equal to the net asset value per unit.

(6) In case of issue (sale) and input costs for redemption,, Management Company is obliged to inform unitholders of the Fund, in an appropriate manner specified in the Prospectus, immediately following the approval of the changes in the Rules of the Fund The financial supervision Commission. The obligation under the preceding sentence shall be executed no later than the next day after learning of the approval of the changes.
